Dear Ms. Callaway,

I greatly enjoyed participating in this year's Alaska State Science Fair. My project was about the effectiveness of layering sun block. I was excited to win the prize of \$100 from your organization. Having fair skin I have always used lots of sun block and was excited to do some research to help others know what to use. I feel that it is so important to encourage kids like me to be interested in science and I plan to use the money to help pay for materials for my project next year.

Sincerely,

Dean Johnson
